ATIC FORM 329 (REV 26 SEP 52)

Names of People who were with me on August 19, 1959 when we
spotted the object.

[REDACTED]

[REDACTED]

1. What was the approximate elevation of the object above the horizon in degrees when first sighted? This object was approximately the same elevation as the moon on that night. (approx 40° elev.)

2. What was the approximate elevation of the object above the horizon in degrees when last sighted? It seemed to go up higher than it was, until it faded from sight.

3. What was the approximate compass direction of the object from you when first sighted? South East

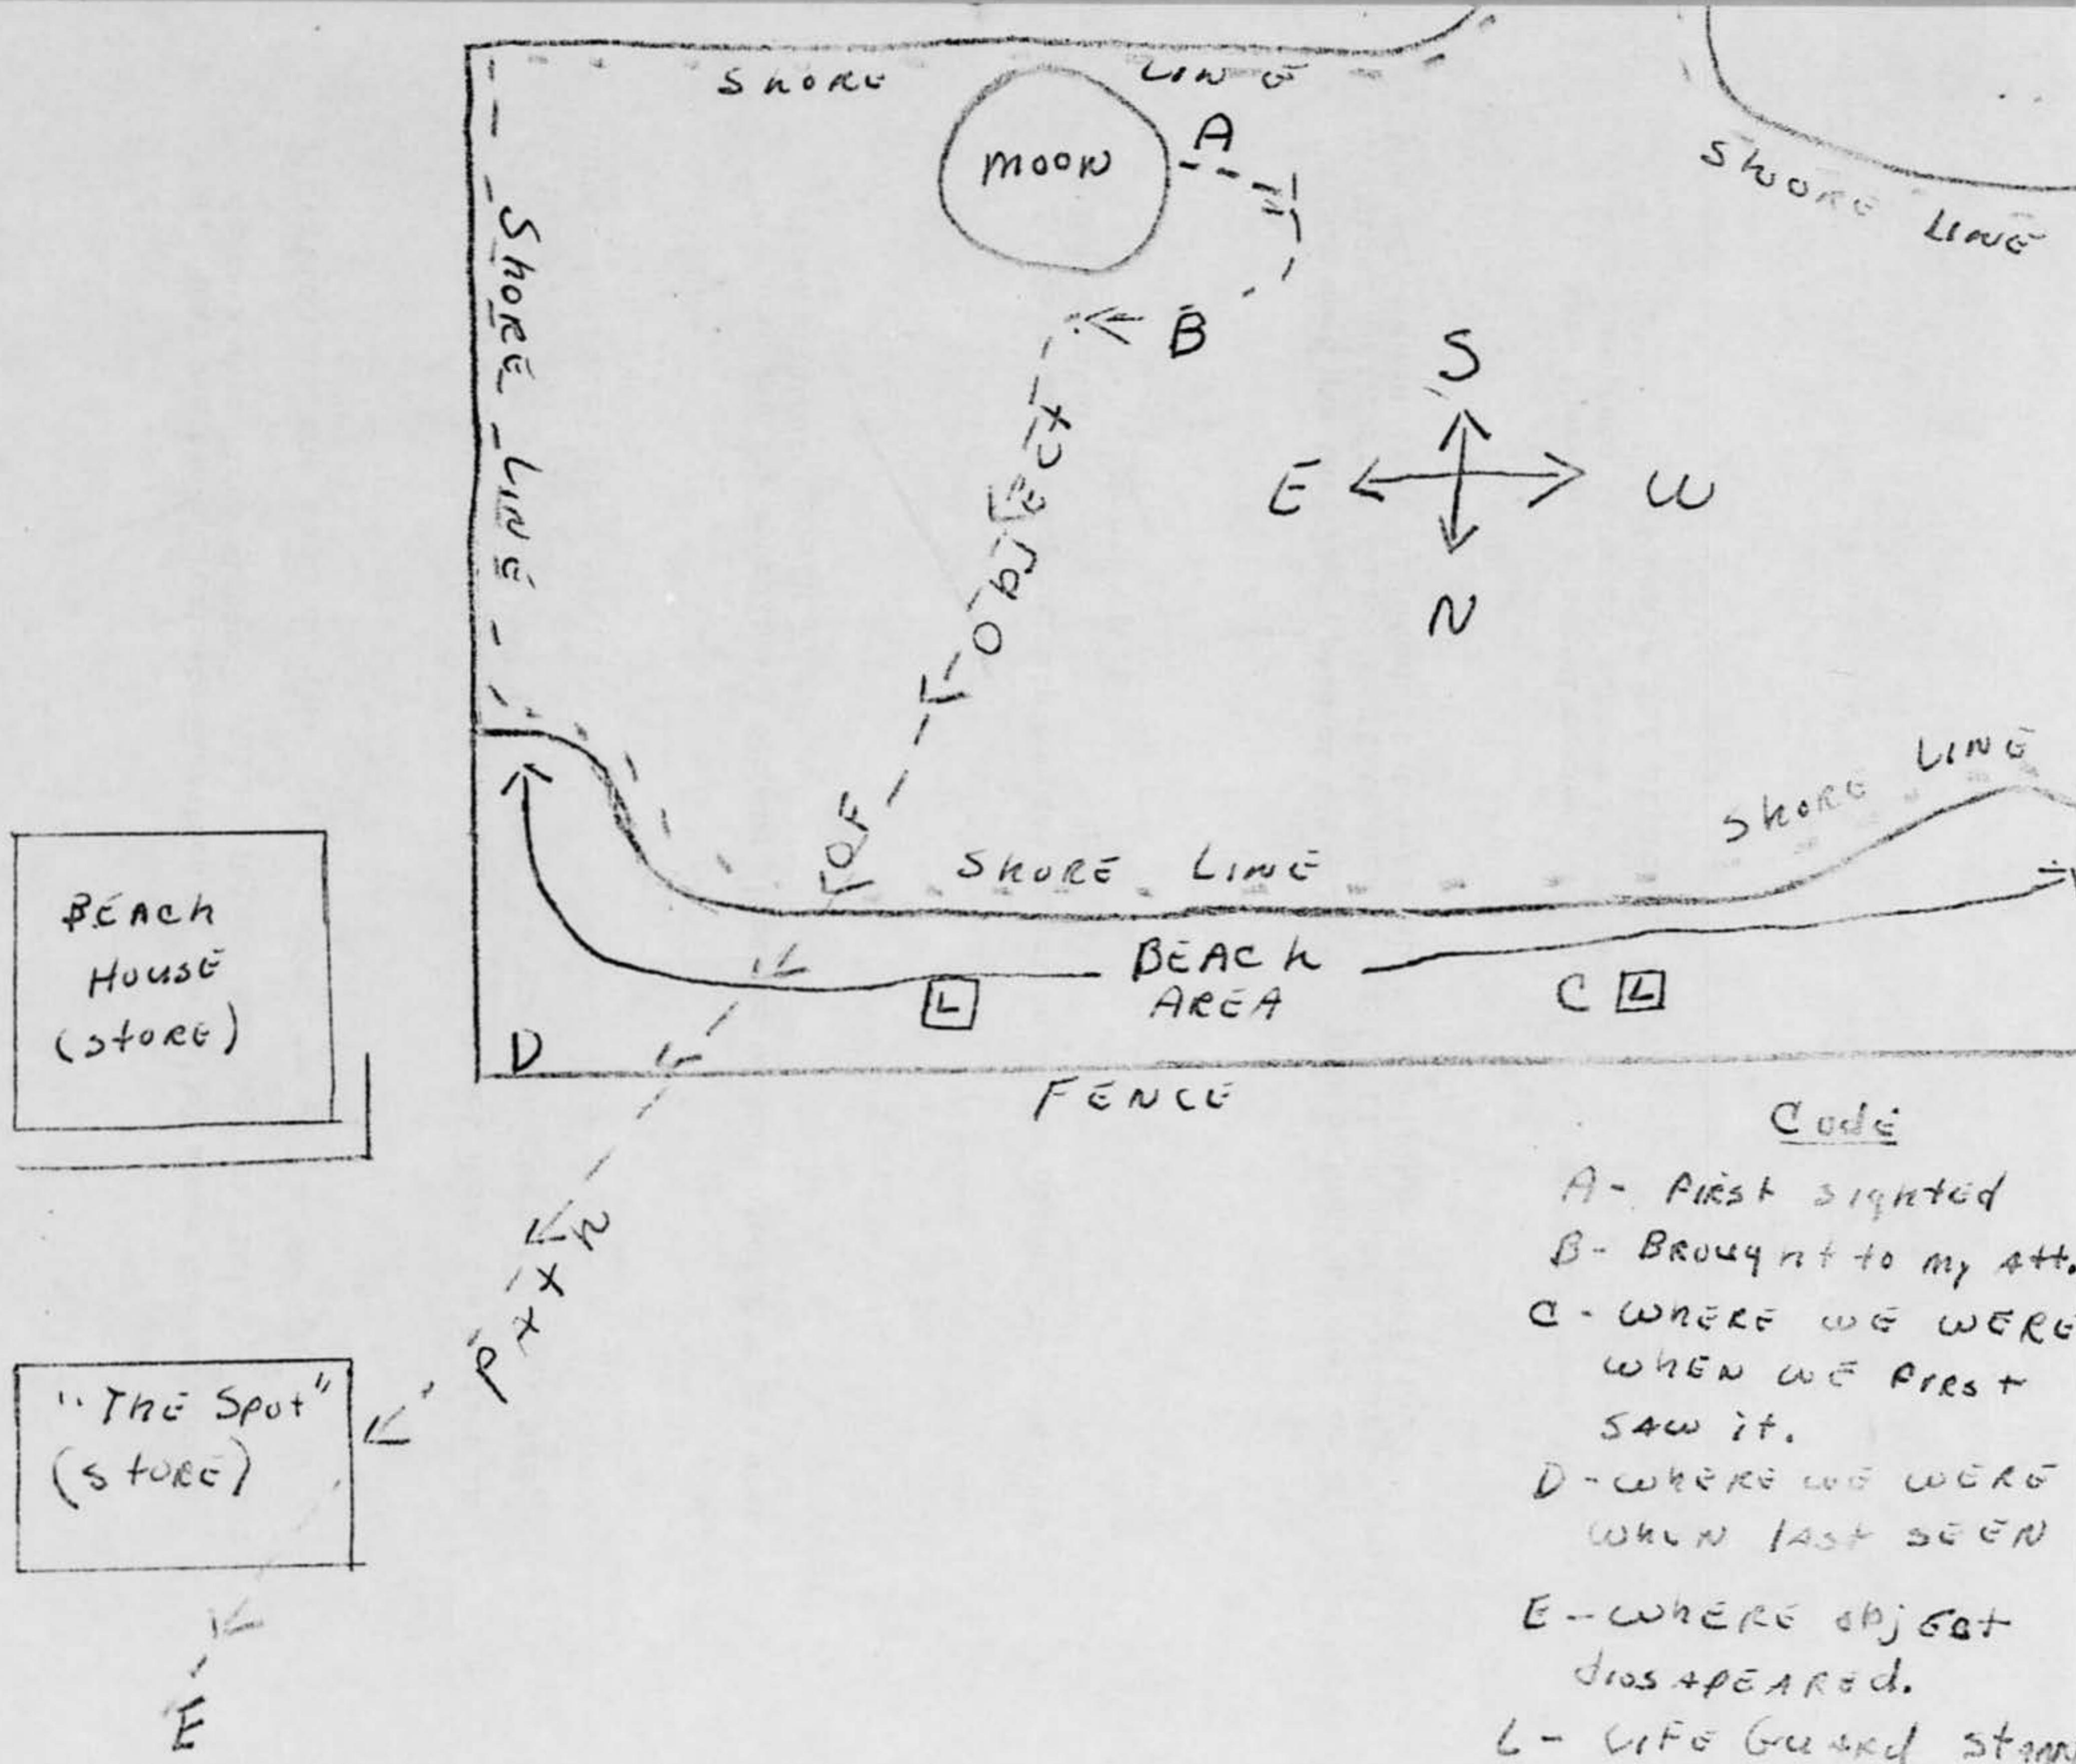

4. What was the approximate compass direction of the object from you when last sighted?

North East

5. What was the flight path of the object? The object travel on a diagonal path from south east to north east. It seemed to dart across the sky. When last sighted it travel up to a higher altitude.

6. Were there any other witnesses? If so, please list their names, addresses, and telephone numbers if available.

Please see attached list.

OFFICER, HQ, NEW YORK ADS, MCGUIRE AFB, NJ. A CHECK OF AIR FORCE BASES IN THE AREA OF THE SIGHTING INDICATED THAT NO WEATHER BALLOONS HAD BEEN RELEASED IN THE AREA AND TIME UNDER QUESTION. HOWEVER, SINCE THE WINDS WERE FROM 290 TO 310 DEGREES, IT IS POSSIBLE THAT A BALOON FROM SOME OTHER BASE TO THE WEST OF THE SITE LOCATION MAY HAVE BEEN THE CAUSE.

UFO Report

Air Technical Intelligence Center
ATTN: AFCIN-4E4g
Wright-Patterson Air Force Base, Ohio

1. Reference is made to messages from this headquarters, OIN - 08537 and OIN - 09399, and message from your headquarters, AFCIN 4E4g 8-1725-E.

2. A reply to our letters has finally been received from the individual who made the initial report of the sighting of an unidentified flying object, and attached hereto are his replies to our questions with cover letter and drawing. It is felt that you will gain more from these than from any attempt on our part to try to interpret them for you.

3. This headquarters has not made any effort to question any of the individuals listed by the initial observer. We will do so if you desire.

[REDACTED]

Please excuse the delay in answering your first letter of August 26, 1959.

In answer to your request for additional information concerning our sighting of an unidentified flying object on the night of August 19th, past. I am sorry to say that I can not answer these questions in as technical a manner as you wish. I sincerely hope that the answers I have given will be of some assistance in this matter.

Enclosed you will find a drawing which i made of the area in which we were when this object was sighted. it outlines the area of the beach, lake, and major buildings. The flight path of this object is also outlined on this paper.

May I also mention that we have heard reports of two additional sightings of the same object? One sighting was reported to us by an elderly woman. She described it as the same which we had seen, claiming that this happened about two weeks prior to our sighting. I am sorry that I do not have this persons name at this time but will endeavor to find this information. This object was also sighted again on Labor Day of this year by some of the persons who witnessed the first sighting. Both sightings were reported to be at the same time of night; around 11:15 P.M.

Please feel free to call on me at any time for any assistance that I may be able to give you. If you would like to discuss this matter with me in person, or for that matter with anyone of the others who were present, I am sure that arrangements can be made. I can be reached at the following phone number during the day; between 9:00 A.M. and 5:00 P.M.

[REDACTED]
Thank you for your attention in this matter, and please accept my apologies for not answering your letter sooner.

Sincerely:

[REDACTED]
